MEMORANDUM

TO: Beatrice S. Tylutki, Director
Solid Waste Administration

FROM: Dirk C. Hofman, Acting Deputy Director
Division of Water Resources

SUBJECT: Stream File No. 1430-78 - XRef. E-888
National Gypsum Company, Millington, New Jersey

This is with reference to your memorandum of April 20 addressed to Director Jeff Zelikson regarding the necessity for National Gypsum to obtain a stream encroachment permit for improvements to protect the Passaic River from a terminated asbestos disposal site within their property near Millington in Passaic Township, Morris County.

A review of the drawings submitted disclosed that the proposed work was not shown. In accordance with your memorandum, Mr. Frank Coolick of your staff was contacted by telephone on May 20. Mr. Coolick was advised that we could not make a determination unless additional information regarding the proposed project was submitted. He stated that he expected to get new plans within the near future and that a set would be sent to Mr. Subash Puri, who was assigned to do this review. As of this date, no new plans have been received. You will be advised of our findings immediately upon receipt of the proper plans.
